IN THE UNITED STATES DISTRICT COURT FOR THE NORTHERN DISTRICT OF OHIO EASTERN DIVISION

UNITED STATES OF AMERICA,) CASE NO.: 1:15-CV-01046
Plaintiff,))
Vo.) JUDGE SOLOMON OLIVER, JR.
VS.) MOTION TO APPROVE SEARCH AND
CITY OF CLEVELAND	SEIZURE TRAINING CURRICULUM
Defendant.)
)

Pursuant to Paragraph 173 of the Consent Decree and the Fourth Year Monitoring Plan in the above-captioned matter, the City of Cleveland (the "City"), on behalf of the Cleveland Division of Police ("CDP" or "Division"), submitted a proposed curriculum for its Search and Seizure Training to the Monitoring Team, consisting of an Introduction, Module #1 – Citizen Contacts, Module #2 – Consent/Residential Searches, and Module #3 – Warrantless Arrests (together, "Proposed Training Curriculum"), attached hereto respectively as Exhibits A through D.

The Monitoring Team has carefully reviewed the Proposed Training Curriculum. The Team has determined that it provides sufficient guidance for CDP officers to understand the Division's revised Search and Seizure policies through a variety of effective adult learning techniques, particularly through interactive roleplay exercises that allow officers to better

understand legal subjects that can be difficult to learn and put into practice. The Monitoring Team therefore recommends that the Court approve CDP's Search and Seizure Training Curriculum.

I. SUMMARY OF CONSENT DECREE REQUIREMENTS REGARDING SEARCH AND SEIZURE TRAINING

Paragraph 173 of the Consent Decree requires that "CDP [] provide all officers with initial training . . . on investigatory stops, searches, and arrests, including the requirements of this Agreement." The training must "address the requirements of the Fourth Amendment and related law, CDP policies, and this Agreement, including:

- a. "the difference among the scope and degree of intrusion associated with different types of police contacts; the difference between probable cause, reasonable suspicion, and mere speculation; and the difference between voluntary consent and the mere acquiescence to police authority;
- b. "the types of facts and circumstances that may be considered in initiating, conducting, terminating, and expanding an investigatory stop;
- c. "the level of permissible intrusion when conducting searches, such as 'pat-downs' or 'frisks';
- d. "the permissible nature and scope of searches incident to an arrest;
- e. "procedures for executing searches, including handling, recording, and taking custody of seized property and evidence; and
- f. "the principles of procedural justice and the effect that differing approaches to investigatory stops, searches, and arrests can have on community perceptions of police legitimacy and public safety."

Dkt. 7-1 at ¶ 173.

II. PROCEDURAL HISTORY

The Search and Seizure curriculum has spent a long time in development. The Monitoring Team first reviewed a draft curriculum in March 2018 and provided detailed comments, but also indicated that the Division's focus should be on the development of the Search and Seizure policies, rather than the training to implement them. The policies were filed with the Court and approved on May 16, 2019. Dkt. 261.

The Monitoring Team provided additional technical assistance on an updated draft curriculum on February 28, 2019. The Division provided the next draft on April 9, 2019, followed by numerous iterations through the end of July. During this time, multiple in-depth discussions were held with CDP command staff, members of the Training Section, the Department of Justice, and the Monitoring Team. Additionally, the Cleveland Community Police Commission provided several important substantive suggestions. The Division worked hard to incorporate the recommendations from the different stakeholders.

However, the development process faced some challenges. During the process, the Monitoring Team flagged concerns about the curriculum, including adequate training on the new policies themselves, lack of clear guidance to instructors to ensure clarity and consistency, confusing application of law, and inadequate integration of adult learning standards.

In early July 2019, the Monitoring Team arranged for external technical assistance from a consultant, using the Monitoring Team's budget, to help develop the training and provide significant input on adult learning strategies. The Division reworked the training significantly and provided updated drafts on July 15, 2019. On July 19, 2019, the Monitoring Team provided final technical assistance by way of a deep dive into the training curriculum with CDP's Training Section. Following this discussion, the Monitoring Team signaled greater optimism about the probable success of the training and acknowledged the hard work of the Division, especially the Training Section.

On August 22, 2019, after incorporating a final round of feedback, CDP submitted the current Proposed Training Curriculum to the Monitoring Team and Department of Justice.

III. STANDARD OF REVIEW

The Monitoring Team's role is to "assess and report whether the requirements" of the Consent Decree "have been implemented." Dkt. 7-1 at ¶ 351; *accord id.* ¶ at 352 (requiring the Monitor to "review . . . policies, procedures, practices, training curricula, and programs developed and implemented under" the Decree). The task of the Monitoring Team here is to determine whether the Proposed Training Curriculum complies with the Consent Decree's requirements.

IV. ANALYSIS OF THE SEARCH AND SEIZURE TRAINING

The Division's Search and Seizure Training Curriculum is a six-hour block of training designed to instruct all CDP officers on the revised Search and Seizure policies. The Division's Search and Seizure policies, revised to meet the terms of the Consent Decree, were approved by the Court on May 16, 2019. Dkt. 261. The curriculum is composed of an Introduction and three modules addressing specific CDP protocols around stops, searches, and arrests. The Division began training officers using the current curriculum on July 30, 2019.

The Introduction module defines important terms such as consensual encounters, non-custodial interviews, seizure, search, reasonable suspicion, and probable cause—terms important not only to substantively understand the policies and protocols, but also for officers to follow along throughout the training. Ex. A at 10-11. The curriculum references other important training initiatives within the Division, such as the Community Engagement and Problem-Solving training, to help officers to get a better context of how the new Search and Seizure training fits within CDP's broader training schema.

Module #1 focuses on citizen contacts, including factors that can turn consensual encounters into a seizure or detention and protocols that CDP officers must follow once a seizure occurs. Ex. B at 4. It primarily uses a roleplay exercise in which officers respond to a call for service over the radio. There are detailed debriefing discussion points, highlighting to officers

how certain behavior during the roleplay can turn a non-custodial interview into a detention or arrest. *Id.* at 8-9. This scenario also reinforces the overlap between community policing and search and seizure by providing officers a "path to success" without utilizing any type of seizure.

Module #2 focuses on consent and residential searches, with officers expected to understand "if they are legally justified to enter private property, seize an individual and/or search a residence[.]" Ex. C at 1. It includes specific topics such as "factors that would legally justify encroaching on a property owner[']s curtilage" and "factors that legally permit an investigatory stop and a probable cause arrest[.]" *Id.* at 4. The module uses a roleplay exercise in which two officers are dispatched to investigate a report of a male shooting a firearm into the air in his backyard. Following the curriculum, instructors ask the class about, among other things, the legal basis for the contact; telling the subject the stop is being recorded; the issuance of a Miranda warning; the articulation of facts and circumstances that led to the arrest; and the need for a search warrant to enter the residence to retrieve firearms. *Id.* at 8-10.

Module #3 focuses on warrantless arrests, or when officers are legally justified to "seize an individual and conduct a pat down or search of persons or places[.]" Ex. D at 1. The module focuses on the reasonable suspicion standard; factors that raise an encounter from reasonable suspicion to probable cause; and the difference between a pat down/frisk and a search incident to arrest. *Id.* at 4. In the roleplay exercise, two officers in a patrol car get flagged by a victim of a robbery, and the officers encounter an individual matching the physical description provided by the robbery victim. Following the exercise, instructors ask the class about the existence of reasonable suspicion to stop the suspect; how to write a report for the initial encounter; and the use of any coercion during the course of the encounter. *Id.* at 9-10.

Overall, the training uses a commendable variety of adult learning techniques, including question-and-answer, interactive exercises, large group discussions, and handouts. Members of the Monitoring Team have observed several sessions, each with many iterations of each scenario, and were impressed by the quality of the training. Based on these sessions, CDP instructors have done an impressive job of elevating the curriculum to engaging and effective instruction.

Despite the arduous process of developing the curriculum, the end result demonstrates that CDP instructors have done an excellent job translating the curriculum into an effective and valuable training for the Division. The decision to partner with the City Prosecutors' Office and have a City Attorney present to discuss and analyze complex legal issues in real-time was an excellent choice. Having observed the high quality delivery of the curriculum, the Monitoring Team is satisfied with the final product, with the caveat that the Team will continue to work with the Division to increase the capacity and resources of the Training Section to ensure that CDP can create and deliver trainings with less hands-on involvement from the Monitoring Team in the future. The City and CDP have already promised that substantial resources to the Training Unit will be forthcoming.

V. CONCLUSION

The task of the Monitoring Team is to duly consider whether the City's submitted Proposed Training Curriculum satisfies the terms of the Consent Decree. The Monitoring Team concludes that the Proposed Training Curriculum meets the terms of the Consent Decree. Accordingly, the Monitoring Team approves CDP's Search and Seizure Training Curriculum in its entirety and requests that this Court order it effective immediately.

Respectfully submitted,

V. We must begin to re-define ourselves as a police agency

- a. As much community input as we have in forming these new policies, we are striving to educate the community on police procedure
- b. We learned in Community Engagement and Problem Solving "Adverse police actions, real or perceived, can cultivate distrust in communities who have been the object of that action. It doesn't matter if the action happened here or abroad. For many, negative perceptions of police can be based on things that happened to others, not just to them"
- These new search and seizure polices assist the Cleveland
 Division of Police in becoming a model of policing in the United States
- d. With these new strategies we begin to build a foundation of trust within the neighborhoods we serve

 - 1. Search incident to arrest

You initiate a noncustodial interview by walking up to the person and begin a casual conversation to develop more information. As you are speaking with the person you notice the glass container is an open container of beer.

VII. Anonymous Tips

- a. Information from a person not known by police is not to be assumed trustworthy without additional details which point to criminal activity
- b. Officers must carefully develop reasonable suspicion in cases involving anonymous tips by corroborating information received with what the officer observes on scene.

VIII. Data Collection forms

- a. Explain to the class-Keep in your mind the need to clearly articulate reasonable suspicion and probable cause. This information along with other information will be input into data collection software
- b. The software is primarily drop down boxes but also has free text input. However it is encouraged to fill out the drop down boxes fully for data collection

CLEVELAND POLICE ACADEMY

I. Scenario for Instructor and 911 call:

A. This scenario will start with a two-person zone car responding to a radio broadcast for a male disturbing outside a corner store. A business owner is calling to report a male loitering on the sidewalk in front of his business and would like him removed. Caller states this is affecting his business but does not state how. The officers will be told they have arrived on scene and directed to role player #1 who is acting as the store owner. If officers ask any questions pertaining to the call, they will be advised that no further information is available. (Note: description will match the role player's outer clothing, height and weight for that day.)

Instructor will act as the dispatcher and provide this information

This sheet can be used as a handout for the role player

The address is 123 Main street

Officers should allow the complaint to speak providing

him a voice.

II. Instructions for Role Player #1

- A. Officers will then confer with the store owner, role player #1, who will state, "that guy has been standing on the sidewalk outside my store for a half hour without coming in or buying anything."
- B. Store owner, role player #1, states that he has asked them to leave the area several times. "I told him if he's not going to buy anything, he has to leave. I want him removed from the area."
- C. The store owner will point out that he has a clearly posted sign saying, "*No Loitering*" in his parking lot.

- C. Role player #2 will not argue with role player #1 or the officers
- D. Role player #2 will not engage the officers or role player #1 until addressed by the officers. If the officer do not engage role player #2, he will advise officers of his actions. (See RP #2 instructions)

- E. Role player #2 Script (Male standing on sidewalk)
 - a. If the officers do not initiate an encounter, role player #2 will approach them and state, "He has been yelling at me to either buy something or leave for the last 20 minutes".
 This will ensure interaction with role player #2.
 - b. If the officers should approach role player #2 who will be standing there calmly but looking around. The role player will be cooperative with all questioning.
 - c. Interaction with the police: be calm and cooperative, and follow any orders given, unless you are asked to leave or to give officers your ID. If you are ordered to leave, refuse and ask why. If officers ask you to produce identification, refuse to do so.
 - d. Role player #2 will comply with officer's commands and allow them to ask questions, before asking if he or she is detained. To end scenario, role player #2 will say, "there's my ride", and then they will walk away.
 - e. If officers then stop him, a seizure has been made and needs to be justified, they should let role player #2 walk away.
 - i. The proper response should be allowing role player #2 to walk away
- F. Officer's desired response when contacting role player #2
 - a. Initiate a non-custodial interview with the understanding no crime has occurred.
 - b. This contact with role player #2 should remain conversational and any questions should be only to gather facts from the perspective of role player #1.
 - c. Professionally explain to role player #2 why you have made contact with them
 - ii. Advise the role player they are not being detained
 - iii. Answer any questions from the role player

Consensual encounter should be built on a pillars of trust and respect

Conversational interaction between the officers and role player

Do not escalate the situation

CLEVELAND POLICE ACADEMY

- iv. Explain to role player what the store owner's complaint is and why police are involved
- d. Officers should/ can provide alternatives (i.e. asking if role player needs a ride or ask him whether he/she is willing to voluntarily move further away from the store to limit the interaction with the store owner)
- e. Officers should not order role player #2 to do anything

Investigatory Stops GPO Definitions Section

- D. The role player is free to leave at any time
- E. Officers should not pat down or search the subjects
- F. If the officers detained role player #2, they will be remediated with the policy
- G. After the conversation with role player #2, officers should explain to the store owner no crime is occurring and RP #2 is legally allowed to be there.

Allow the scenario to evolve, note teachable moments to explore during the debrief

Once the proper deescalation is use for the complaint, this should be a low stress interaction

- V. Debrief scenario and answer all questions
 - A. Provide positive feedback to officers for proper actions during the scenario.
 - B. Ask, "What was your legal basis for the stop?"
 - i. There is not a legal basis for ANY form of detention, this is a non-custodial interview
 - C. Ask, "Was immediate police action required?"
 - i. No, assistance provided to all parties to keep the situation from escalating.

Investigatory Stops GPO I, B1

- E. Cover any missteps, problems, or issues occurring during scenario.
- F. Answer all questions in connection with the scenarios.

This scenario is a consensual encounter. Store owner will complain in general about people in front of his store.

If asked for ID, role player will provide it. Instructor should have discussion about factors that turn a consensual encounter into a detention:

- 1. Walking away/holding ID
- 2. Giving an order to subject
- 3. Placing subject into the patrol car
- 4. Making subject feel they are not free to leave

Instructor will complete the performance evaluation form for each student

Instructor's debrief will include, that when individuals are treated properly and with respect, we will receive greater cooperation from citizens. This provides opportunities for interactions with community members in an official capacity which empowers them with a collective problem solving experience. Showing citizens examples of working with the police will provide better police service to the community.

Officers should be striving to work toward the four pillars of community engagement:

IV. Instructor set-up and 911 call

A. This scenario has a two officer z/c being dispatched to investigate the report of a male, in his backyard, shooting a firearm into the air. When you arrive you will speak to Role Player #2 who will be acting as the 911 caller

Scenario and Role player Script:

- A. Role Player #2 will advise, "My Neighbor has been in his backyard all day drinking alcohol, and shooting his gun into the air." Role Player #2 also states that the "neighbor is always walking around his property with a gun on his hip". The Role Player will tell the officers the description of the suspect. (Description given will match that of the role player for that days training). If asked any other questions by the officers the answer will be "I don't know."
- B. Officers will then see the described suspect male or female (Role Player #1) Standing by his front door with a firearm holstered on his or her hip. Role player #1 will have a bottle of alcoholic beverage (half full) in his hands.
- C. When Role Player #1 sees the officers, he or she will go inside the front door and secure the firearm. He or she will then walk back outside and stand by the front door/stoop. The holster should be empty and still on the hip. As the officers approach Role Player #1 he or she will state "You are not permitted on my property."
- D. As officers engage Role Player #1, he or she will state to them that he has "been drinking, cleaning his pistol, and listening to the game on the radio in his backyard." The Role player will then state "I fired a couple of rounds into the air to celebrate the championship game, just like everyone else was doing".

V. Role player instructions, If/When:

A. If the Role player is asked by the officers to enter the house he or she will state" NO, I do not permit you to enter my house and that I have done nothing wrong."

USE THIS AS A HANDOUT TO THE ROLE PLAYER

ALLOW THE SCENARIO TO EVOVLE, NOTE TEACHABLE MOMENTS TO EXPLORE DURING THE DE-BREIF

POINT IN THE DIRECTION OF ROLE PLAYER #1

KEEP YOUR HANDS VISIBLE

HOLSTER SHOULD BE CLEARLY VISIBLE

WHEN ASKED ABOUT THE FIREARM, TELL THE OFFICER YOU PUT IT INSIDE THE HOUSE

B. If not asked by officers to enter property, role player will ask if he is "being detained or if he or she is free to go inside."

YOU FIRED THE ROUNDS STRAIGHT UP IN THE AIR

- C. Role player will answer questions, but will state he or she "knows the law and is allowed to have a firearm on his property and can exercise his or her right to open carry."
- D. Role player will advise officers that he is "home alone, having a few drinks while and listening to the game on the radio in the backyard." The role player will have slurred speech and appear to be unsteady on their feet.
- E. Role player will advise that he celebrated the victory "as everyone else did around the neighborhood".
- F. He will then state that officers are not allowed to search him, his property, nor are they allowed to enter his residence.
- G. Role player will advise officers that he is the only one home.

Due to the fact the crime involves a firearm; a pat down of the subject is justified.

When denied access to the residence, officers must stop and obtain a warrant before entering the subject's apartment.

The correct CCO is 627.04 Using weapons while intoxicated

Per Divisional Notice 16-337, officers shall not arrest for CCO 627.12.

CLEVELAND CODIFIED ORDNANCE 627.04

DIVISONAL NOTICE 16-337

(RC 2923.15; Ord. No. 931-14. Passed 4-20-15, eff.4-21-15)

Instructors note the reason for entering the person's curtilage is officers have reasonable belief that a crime has occurred and there is an exigency issue. Officers do not know if the suspect is a danger to himself or others

Furthermore if there was no exigency or no observable crime and an individual is refusing to allow officers on their curtilage, the preferred method is obtaining a search warrant

IV. The Scenario and Role Player Script

a. In this scenario, a two person car will be patrolling the zone assigned to them for the shift. While driving the officers get flagged by a frantic individual who state they were just robbed by a person with a gun. The victim reports the suspect stole a watch from them and walked eastbound to the next street. The victim provides you with a suspect description (the description will be the clothing that the role player is wearing that day). This incident occurred about 30 seconds prior to your arrival. After confirming EMS is not needed, you drive the zone car eastbound to the next street to find a person walking eastbound matching the exact description that the victim gave you. 60 seconds total has passed. You get out and approach:

- a. RP #1 will act suspicious by looking nervous, not making eye contact and walking in different directions (evasive)
- b. Interaction with Police- Cooperate with officers as the officers ask questions, Role Player #1 will answer them but will appear anxious. If asked about a robbery Role Player #1 will state they don't know anything about anyone being robbed. Refuse to answer any other questions. Role Player #1 will have a BLUE GUN concealed in his sock under his pant leg. He or she will have a wrist watch in a side pocket.

Allow the scenario to evolve, make note of teachable moments and address these in the debrief

 - 1. Pat down of outer garments for weapons
 - 2. Seize firearm in connection with evidence
 - ii. When officers have probable cause to arrest
 - 1. Search incident to arrest
 - 2. Question after Miranda has been issued

VIII. Scenario Specific Questions **INVESTIGATORY** a. What was your legal basis for the contact? STOPS GPO (II, A) i. Investigative stop in connection with a report of an aggravated robbery 1. A victim stated he/she was just robbed by a person with gun **INVESTIGATORY** STOPS GPO (III,B) 2. Suspect walked eastbound 3. You find individual matching the same description the victim gave you eastbound from the location you were just at 4. Time proximity (60 seconds total has passed ii. Physical arrest after probable cause was determined b. Did you state the stop was being recorded? i. Yes or no? Why not? c. At what point did you issue Miranda warnings? Why? GPO MIRANDA i. The Miranda warning is required by Miranda v. WARNING AND Arizona, 384 U.S. 436 (1966), and applies only to WAIVER (I, A) sworn police officers who will be questioning or interrogating a subject who is in custody ii. Officers shall provide Miranda Warning when both of the following criteria are met 1. The subject is in custody 2. The officer is to question or interrogate the individual about any crime d. What was your reasonable suspicion for stopping the role player? i. Officers shall not rely solely upon an individual geographic location, or presence in a high crime

area without any other specific and articulable facts indicating that the individual has been, is, or is about to engage in criminal activity, as the basis for an investigatory stop

ii. Officers may take into account the race, ethnicity, age, gender or other demographic characteristics of an individual in establishing reasonable suspicion or probable cause only when the characteristics are part of an actual and credible description of a specific subject in an investigation that includes other identifying factors

RS can be based on appearance, actions, prior knowledge of the person, area or stop, time of day, law enforcement training or experience, LE purpose, source of information

- e. What are you going to do now?
 - i. When taking a subject into custody, as early as practical under the circumstances, officers shall identify themselves, inform the subject that he/she is under arrest, and state the reason for the arrest
 - ii. Complete arrest procedure
 - iii. Complete report, pre-booker, etc.
- f. Articulate how you would write this report keeping in mind the reason for the initial encounter
 - i. The student should provide the instructor the reasonable suspicion for the initial encounter and the probable cause for the arrest
- g. If this was a juvenile how would you issue Miranda warnings?
 - i. Age appropriately, each warning should be read slowly and one at a time
 - ii. Juvenile will be asked to recite them back to and explain each in their own words to check understanding of the rights.
 - iii. Officers shall stop questioning when the juvenile has requested an attorney, parent or guardian.Officers may resume questioning when the

MIRANDA WARNING AND WAIVER (III,B,2)

attorney, parent, or guardian is present; however no parent or guardian may waive the juvenile's right to counsel

- h. Did you attempt to use coercion during the course of the encounter, examples are
 - i. Threatening to charge a person with crime such as obstruction or disorderly conduct
 - ii. Threatening a referral to department of children and family services
 - iii. Threatening to obtain a warrant as means of obtaining consent
 - iv. Threatening the use of a K-9
- i. What if anything would you do differently?
 - i. Solicit student feedback
- j. What is the difference between a pat down search and search incident to arrest
 - i. Pat down/frisk-a limited search during an investigatory stop in which an officer conducts a pat down of the outer clothing of a person for weapons when the officer reasonable suspects that the particular person is armed and dangerous. It is limited to what is necessary to detect weapons and must be based reasonable articulable suspicion that the person is armed. An officer may not manipulate objects that are discovered under the clothing to determine whether they are contraband

ADDRESS ANY DEFECNCIES

SCENARIO COMPLETE, PREPARE FOR NEXT SCENARIO

Instructor will ask officers to articulate an example narrative for their reasonable suspicion that this person is the suspect in the crime. The narrative should focus on information provided by the victim, such as, physical description, clothing, location in relation to the area crime was committed, and a detailed account of the subjects behavior.

THIS IS THE ASSESSEMENT SHEET

- ii. <u>Search incident to arrest-</u>A search of an arrested person, their personal effects, or their area of immediate control at the time of search
- iii. Custodial searches shall be conducted respectfully and, when possible, be conducted by officers of the same/gender identity as the arrestee

Discussion point for this scenario is how does the search of the suspect and the discovery of the blue gun relate to the strip search GPO.

Instructor: This does not fall under the strip search GPO.

IX. Performance evaluations:

- A. Did officers properly identify themselves as Cleveland Police? If "No" why not?
- B. Did officers state the reason for the search/seizure?
- C. Do officers state how the search will be conducted?
- D. Did officers state the stop is being recorded?
- E. Do officers limit the pat down to outer clothing where a weapon could be concealed?

- F. Did officers advise the suspect of his Miranda warnings and receive a verbal affirmation?
- G. Was the arrest limited to a reasonable time frame?
- H. Did officers act with professionalism during stop?

Acting with professionalism by providing very clear, calm, and precise commands will increase the likelihood of voluntary compliance from the suspect.

Advising and keeping the subject informed of the reasons for the stop also increases the likelihood of voluntary compliance.

- I. Do officers articulate their reasonable suspicion for the stop?
- J. Do officers articulate their probable cause to arrest?

Officers should be aware of the behavioral responses people, especially youths, may employ that can impact the tenor and evolution of an investigatory stop in unintended ways. Responses may include

- 1. Physical resistance including fleeing
- 2. Verbal challenges
- 3. Outright disregard for police directives
- 4. Resignation to perceived mistreatment

X. Handout scenario:

A. The officers not in the scenario will be given a handout describing a search and seizure scenario that they will work on while officers are engaged in the live action scenarios.

Instructor will complete the performance evaluation form for each student

Handout #1

Officers will state specific actions that cause the decision to stop or not

Training Section will provide a training book which will contain copies of the five GPOs making up the new search and seizure policy.

These books will be provided for reference to the officers in scenario, as well as for the officers in the handout scenarios.

Questions not found or answered will be looked up and addressed through this reference.

XI. Handout Discussion:

- A. The instructor will open a discussion with the students on how they would have handled the scenario in Handout #1
- B. The instructor will answer any questions on how to handle the handout scenario
- C. The instructor will correct any issues officers may have had during the handout scenario

During handout discussion, address issues with questioning juveniles. Discuss the need to make sure the juvenile is provided Miranda right in an age appropriate way and then that they acknowledge understanding of the Miranda rights officer has provided.

Can also take time during discussion to review the above listed issues with dealing with juveniles.

CONCLUSION

- A. Summarize material
